

Playdough recipe for Section IV

2 ½ cups flour
2 packages of sugarless drink mix
½ cup salt
1 TBSP alum
2 cups boiling water
3 TBSP oil

Mix all dry ingredients and gradually add boiling water. Once all the water has been added and has cooled, it works best to mix with your hands.

If the dough mixture is sticky, add more flour and / or oil until mixture is smooth and not sticky to the touch.
